Creative Problem Solving and Decision Making

A Practical base 2-Day Workshop

“ A problem is an issue or obstacle which makes it difficult to achieve a desired goal, objective or purpose. It refers to a situation, condition, or issue that is yet unresolved. In a broad sense, a problem exists when an individual becomes aware of a significant difference between what actually is and what is desired.

Creative Problem Solving and Decision Making

A Practical base 2-Day Workshop

The degree to which problem-solving and decision-making situations will be successful is determined by the nature of problems and by which techniques and tools are employed. This is where creativity must play a dominant part and role in industry now and become the dimension to apply vigorously in order to reap the rewards of problem-solving.

This programme addresses the factors mentioned above and provides executives and managers with the creative tools and techniques to explore, identify, solve and even prevent problems.

Key Learning Outcomes

This practical programme will give participants the skills to:

- Be a contribution to change.
- Find the cause of a problem instead of focusing energy on the symptoms of the problem.
- Use the right tools to solve problems effectively.
- Explore alternatives to solutions.
- Be creative and innovative in solving problems.
- Invent win/win outcomes in decision makings and executions.
- Communicate the process and success stories.
- Invent a new game-'Am I a contribution'.

The Trainer

Stephen Corneilius has over 27 years of experience in Organisational Development, Productivity Improvements and Behavioral Change and People Development. He has consulted more than 30 clients within the Asia region as an Independent Consultant for IMPAC focused on delivering the needed attitudinal behavioral changes, productivity improvements and projected savings to the client. He was the Principle Consultant for SC Management Consultancy proving consulting service for the Siam City Cement Group (Thailand), PT. Punggung Electronic Surabaya and PT Omron Electronic, Jakarta Indonesia - focusing on Project Management, Organisation Development and Career planning programmes and also provides consultation services for Malaysian Clients. Currently, he is the CEO of UCSI Extension, a training and consulting firm that provides lifelong 'learning and growth' opportunities for corporate clients and working adults.
